May 31, 2018.

Hi Siobhan,

It was such a pleasure to have you as our Keynote Address and Presenter for our 2018 Career Day at Thomas Street MS!!!! Students and Teachers shared with me how engaging and inspirational your presentation was. Thank you for the way in which you voiced your narrative of failure and success, it allowed for over 300 of our grade 8 students to further understanding of Growth Mindset, to identify their passions and dreams and believe in themselves to achieve their goals.

Thank you for sharing excerpts from your book The Treasure we Seek, it was an opportunity for students to identify with not only your narrative, but also the narratives of successful public figures and role models who inspire us to be the change we wish to see.

I appreciate how easy it was to communicate with you via email and phone, and how organized your presentation was. You are truly a gifted facilitator and presenter who comes highly recommended and valued as a contributor to our community of learners.

Thank you on behalf of the staff and students at Thomas Street Middle School!!!

Daryl Sidal
